## WORK EXPERIENCE

Web Developer Intern- Pulp You Media Pvt Ltd

- Supported existing applications like adding new features to a webpage and added integration like payment system using Stripe, file upload using AWS s3.
- Maintained the understanding of current web technologies or programming practices through continuing education, reading or participating in various webinars.
- Designing, implementing and supporting database development on MongoDB.
- Tested websites and performed usability testing and troubleshooting prior to live deployment.
- Used Jira to create/update and maintain the status of the production issues.

## LATEST PROJECT

### TRELLO CLONE

React/ Node JS/ Express JS/ MongoDB

Full stack web application behaves just like Trello. Able to create multiple cards with drag and drop feature

**Visit Project:** <https://trello-master.herokuapp.com/>

### COVID TRACKER

React / Material UI / Chart.js / API

React application that fetches the data from the API and visualizes it using charts.

**Visit Project:** <https://pranishshresth.github.io/Covid-App/>

### ORDER MANAGEMENT SYSTEM

Node.js / MongoDB / Express.js / EJS

Manage the orders from the clients in a very intuitive way. Create, read, update and delete order.

**Visit Project:** <https://ordermanagementsystemv1.herokuapp.com/>
