Pranish Shrestha

SUMMARY

I'm a progress driven person, who loves building projects in my free-time and learn from other people projects. I am looking to embark on my next journey as a developer and bring value while working on building bigger ideas.

SKILLS

- Semantic HTML5
- Responsive CSS3
- Bootstrap
- ReactJS
- NodeJS
- Sass/Scss
- JavaScript
- MongoDB
- MySQL
- jQuery
- Git/Github
- Mobile First Approach

RECENT PROJECTS

COVID App — https://pranishshresth.github.io/Covid-App/

- Developed UI using ReactJS, Material UI
- Used axios to fetch recent data and ChartJS to visualize it.

Order Management System — https://ordermanagementsystemv1.herokuapp.com/

- Developed full stack web application using MongoDB, EJS, ExpressJS and Nodejs.
- CRUD application along with data visualization.
- Used of SendGrid api to send emails and dummy PayPal transaction

EDUCATION

Bachelor's in information technology — *Federation University*
March 2018 - Current

Learnt about concepts of DBMS, Cloud, System Design, Mobile App development as well as game development. Also worked in a team to build a project as well as individually.

freeCodeCamp — *Front-End*
March 2018 - Current

Built multiple projects that challenged and pushed my skills as a developer by exposing me to new concepts and best practices. Estimated course time is 400+ hours.
